## Scout RX1 Red

Vacuuming has never been so intelligent.

# Scout RX1 Red – setting new standards

---

The Scout RX1 Red by Miele is setting new standards in efficiency and thoroughness, advancing in more than just color. With Smart Navigation, Miele secures a leading edge in terms of quality. A unique combination of a ceiling camera, gyro sensor, electronics and software navigates the Scout precisely and reliably like no other. With the addition of three new features to the Scout's Triple Cleaning System, there is 34% improved dust pick-up performance. Ideal for all types of flooring, the Scout can easily transition from carpet to smooth surfaces and navigate over thresholds.

## Improved Triple Cleaning System

### for 34% more dust pick-up

The Scout is equipped with two front brushes made from extra-long fiber material that rotate to collect dirt and debris from floors. An effective turbo brush and high-efficiency suction system collect dirt into a 22 oz. dustbin.

- **NEW: Side brush dust strippers**  
to ensure the two front side brushes maintain ultimate cleanliness while sweeping the floor.
- **NEW: Chevron style brush roll**  
for a more comprehensive clean across all flooring types.
- **NEW: Sealing lip**  
prevents dust from passing underneath the unit.

# Unique features

---

## Smart Navigation

The Scout uses Smart Navigation to detect its current position — enabling thorough cleaning of all areas. Features a Gyro sensor for consistent path cleaning, a Furniture protection system with 7 anti-collision sensors and Stair detector sensors.

## 4 Cleaning Modes

- **Auto Mode** cleans all rooms, up to 1,600 sq. ft., and returns to base
- **Corner Mode** runs an Auto Mode program, then cleans all corners and returns to base
- **Spot Mode** cleans 6 sq. ft. area
- **Turbo Mode** cleans 50% faster (bigger gap between lines), and returns to base

## Non-Stop Power

The Scout features a rechargeable lithium-ion battery that offers up to two hours of continuous cleaning without recharging. It cleans rooms up to 1,600 sq. ft. per charge.

## Included Accessories

**Remote Control** allows you to manually control the Scout. Plus you can set the timer, change the cleaning mode, return the unit to its base for charging and power on/off. Batteries included.

**AirClean Filter** (four included) protects the motor and filters the air.

**Charging Station** is the Scout's base for recharging its battery. Up to two hours continuous cleaning without recharging.

**Side Brushes** sweep dirt toward brush roller.

**Magnetic Strips** to block areas or furnishings the Scout should not clean. 3'3" length. Additional strips can be purchased.
