**Miele Introduces New Elegant Gas on Glass Cooktops**

*The new cooktops allow for flexible kitchen design and thorough cooking efficiency*

**Princeton, NJ** – Miele, the largest family-owned luxury appliance manufacturer, is continuing to raise the bar in cooking technology and design with the introduction of two new Gas on Glass cooktops. Like all Miele products, the sophisticated Gas on Glass cooktops, are designed for life: the configuration of both allows for even heat, easy clean-up and assured safety while cooking.

Available in 24" and 36" options, the black glass cooktops are ideal for any small or large kitchen setting. For ease of use, the control panel is centrally located with stainless steel knobs. With Miele QuickStart technology, the convenient rotary electronic controls switch the burners on without the constraint of needing to press or hold the controls. Both cooktops also include Miele signature ComfortClean dishwasher-safe grates, made for easy pot and pan transfer between burners.

To ensure a safe cooking experience with each use, the GasStop & Restart feature will automatically re-ignite the flame if the flame withers while cooking. If the re-ignition fails, the gas supply is temporarily withdrawn for optimal safety.

**KM 3010**

The Miele KM 3010 24" Gas on Glass cooktop with stainless steel trim offers incredible cooking power with four sealed burners, designed for different heat levels. The high speed burner reaches 9,300 BTU while the simmer burner can reach as low as 3,750 BTU – ideal for simmering delicate ingredients such as chocolate or butter. The two standard burners reach 5,800 BTU and can be modified with minimal effort.

**KM 3054**

The Miele KM 3054 36" Gas on Glass cooktop provides additional power, featuring the same

burners as the KM 3010 option with an additional Super (Wok) burner that can reach 16,500 BTU. This model also includes a timer and indicator lighting.

The cooktops retail for \$1,199 (KM3010) and \$1,999 (KM3054) and will be available for purchase through Miele authorized dealers. To locate a dealer nearest you, please visit <http://www.mieleusa.com/domestic/find-a-dealer-384.htm>.

### **About Miele**

Founded in Germany in 1899 with a single promise of Immer Besser, a phrase meaning Forever Better, Miele has dynamically grown to become the world's largest family-owned and operated appliance company with more than 16,600 employees, 12 production facilities and representation in nearly 100 countries. As a premium appliance brand represented on all continents, Miele is steadfastly committed to the highest quality, performance and environmental standards. Miele's range of exceptional consumer appliances includes: vacuum cleaners; laundry systems; rotary irons; dishwashers; ranges; built-in convection, speed, steam and combi-steam ovens; cooktops; ventilation hoods; refrigeration; wine storage and espresso/coffee systems.
