Miele USA Debuts New PerfectCool French Door Refrigerator

The new refrigerator allows for more versatile kitchen design and enhances PerfectCool Series

Princeton, NJ – Miele, the largest family-owned luxury appliance manufacturer, introduced a [PerfectCool French Door Refrigerator](#) as its first product launch in 2017. This new 36-inch option is the first French Door refrigerator by Miele. It rounds off the PerfectCool collection which currently consists of a 24-inch refrigerator column, a 24-inch freezer column and a 24-inch bottom-mount.

The refrigerator is fully integrated for endless design possibilities using custom panels to fit any kitchen décor. The soft-closing French Doors and Double-Freezer Drawers provide maximum capacity without interfering with narrow kitchen layouts. Miele's exclusive PerfectFresh preservation system lets consumers customize temperature zones and air humidity levels for specific perishables.

Additional features include a plumbed IceMaker, Gallon Door Bin, and Comfort Clean Door Bins as complementary conveniences. The Gallon Door Bin allows larger items to be stored for easy access and the Comfort Clean Door Bins can be cleaned effortlessly in a Miele Dishwasher. The maintenance-free LED Lights ensure perfect illumination of the interior and when prompted the refrigerator will run in Sabbath Mode*.

The Miele PerfectCool French Door refrigerator will be available at select dealers throughout the United States. To find a dealer near you, click [here](#).

*Sabbath Mode allows for religious observance.

About Miele

Founded in Germany in 1899 with a single promise of Immer Besser, a phrase meaning Forever Better, Miele has dynamically grown to become the world's largest family-owned and operated appliance company with more than 16,600 employees, 12 production facilities and representation in nearly 100 countries. As a premium appliance brand represented on all

continents, Miele is steadfastly committed to the highest quality, performance and environmental standards. Miele's range of exceptional consumer appliances includes: vacuum cleaners; laundry systems; rotary irons; dishwashers; ranges; built-in convection, speed, steam and combi-steam ovens; cooktops; ventilation hoods; refrigeration; wine storage and espresso/coffee systems.
